BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. | MONDAY, JANUARY 20, 1851. | VOLUME XVII.....NUMBER 172.

Bangor Daily Whig and Courier

IS PUBLISHED

Over the Kenduskeag Bridge, at Four Dollars a year, payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders for discontinuance must be accompanied by the account due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier, every Tuesday morning, at Two Dollars a year in advance, or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

MR. T. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

Prepared by the Proprietor of the Medical Science, at the Laboratory of the Practical Chemist, Lowell, Mass.

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community this justly celebrated preparation, it is the object not merely to make one more effort to rival, with the many, the boasted skill of the distinguished men of science whose testimony to its virtues is given below, but to present to the afflicted the best remedy for their complaints that we have been able to produce. Whether we have succeeded in this effort, will be decided by the trial. We think we have, and we confidently, but modestly, offer it as a remedy which will do all it is recommended to do.

Its proofs are here given, and we solicit an inquiry from the public into all we publish. Facts, not assertions, will be found to be the staple of this advertisement. Let the sick and suffering read and judge for themselves.

From the distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

Dear Sir: I duly received your inquiry of the receipt of your preparations, and I have had an opportunity of witnessing their effects in many cases, of which I have been informed by my friends. This I have now done with a high degree of satisfaction, in cases both of adults and children.

I have found it, as my correspondents do, a powerful remedy in the diseases of the throat and lungs. I have, indeed, found it a valuable remedy in all cases of pectoral complaints, and in all those diseases of the throat and lungs which are of a bronchial character. I have no hesitation in saying that it is the best remedy for those diseases with which I am acquainted, and I have used most of those which are offered to the public as remedies for such diseases. Yours, truly,

JAMES C. JACKSON, M. D.

Brunswick, Me., Feb. 5 1847.

From an Overseer in the Hamilton Mills, in Lowell.

LOWELL, Aug. 10, 1849.

Dr. J. C. AYER: I have been cured of that worst cough I ever had in mine life, by your "Cherry Pectoral," and never fail when I have opportunity, of recommending it to others.

Yours, respectfully,

D. EMERSON.

☞ Read the following and see if this medicine is worth a trial. This patient had become very feeble, and the effect of the medicine was manifestly distinct.—

UNITED STATES HOTEL,
Saratoga Springs, July 5, 1849.

DR. J. C. AYER,—Sir: I have been afflicted with a painful affection of the lungs, and all the symptoms I edition consumption, for months, that allayed I could find no remedies that gave me much relief, until I commenced the use of your Cherry Pectoral, which gave me great relief, and I have been steadily gaining my strength till my health is well nigh restored.

While using your medicine, I had the gratification of curing with it my reverend friend, M. Tinman, of this place district, who had been suspended from his pastoral duties by a severe attack of bronchitis.

I have pleasure in certifying these facts to you.

And am, dear sir, yours, gratefully,

C. F. COLTON, of South Carolina.

Prepared and sold by JAMES C. AYER, Practical Chemist, Lowell, Mass.

Sold by the Agents in the following places: Bangor, LADD & BRADLEY; Hampden, SARGENT & EMERSON; Orono, A. P. GUILD; and G. W. HOLDEN; Burkesport, G. W. SIMPSON & Co.; Belfast, Wm. O. Pooler; Ellsworth, H. Nobleboro', and by the Druggists generally throughout the country. nov 25 3mdawlw

Sewing by Machinery.

To Journeymen Tailors, all Seamstresses, Employers, and all others interested in the sewing of any description.

SEVERAL attempts have been made to produce Machines for Sewing, but they were not without many objections, and could be used to little advantage or profit.

SINGER & PHELPS' *Patent Lock Stitch Sewing Machine*, invented by Isaac M. Singer, and manufactured by Singer & Phelps, No. 19 Harvard Place, Boston, Mass., is offered to the public as a perfect machine, and will be constructed and adapted to perform all kind of work, in the stitching of every description of leather. The saddle and harness works, per pendiculars upon the table of the machine, affording readier access to parts liable to adjustment and wear—and the stitch may be regulated to fine or coarse, by a thumb screw.

The finish made by this machine is one which will not ravel in event and the sewing can only be taken apart by cutting every second or third stitch. From 800 to 1500 stitches, according to the labor operated upon, may be taken per minute.

To those who are desirous to purchase machines, which will save at least from five to ten dollars per day! The operator is not confined to the manufacture of clothing only, but may be apply it to sewing every description of hats, caps, trunks, and most kinds of leather.

The machine, with ordinary care, is warranted to run for several years without repair, and will last many years longer. It is so simple in construction, that an ordinary machinist may understand and manage it, and persons of ordinary ability may operate it.

The prices of sets of these machines, which is complete, treadle, and can be set on any ordinary table, or on a table made for the purpose, with drawers for holding thread, &c., is fifty dollars complete, to which is added twenty-five dollars more for the privilege of operating.

These machines are so beautiful and neat in their appearance, and they take up so little room, that the ware and ornament to any lady's sewing apartment.

☞ An Agent, with whom exclusive arrangements will be made, is wanted in every city and town in the United States.

All applications must be addressed to SINGER & PHELPS, No. 19 Harvard Pl., Boston, Mass

Wilder's Patent

SALAMANDER SAFES

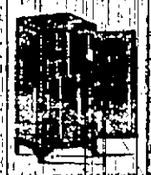
90 STATE STREET,

Corner of Merchant's Row.

SECURED AGAINST GUNPOWDER

—and—

Warranted not to Injure Books or Papers by Dampness.



THESE are the *only Safes* which have a PATENT that save to every purchaser perfect their goods to when exposed to large fires, like the burning of the Fishers Commission Office in New York and Boston.

The above Safes are now for sale by JOHN E. WILDER, 90 State Street, and for sale in Bangor, at the manufacturers prices, by

FISKE & DALE.

☞ The following certificate from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safes over all others:

BANGOR, Oct 21, 1850

John E. Wilder, Esq.—Dear Sir: I purchased one of your Safes of Fiske & Dale. The same was exposed to a great degree of heat at the burning of the Telegraph Office in this city. It was in the fire six hours, the books and papers were entirely consumed, and the damage to the Safe very slight, although it will form a perfect safety to the books of the business. The Safe has been in use and we shall not need it to be changed as new.

JAS. FIDDY.

Respectfully yours,
Oct 8 1850 6mis

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

WITH THE PATENT OFFICE,

WASHINGTON.

No. 22 State Street, Boston.

IN 1849 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Section of Act of '37.

Having relinquished the Agency for the transaction of Models, and devoted his undivided attention to procuring Patents in the Patent Office, where *he is Personally known and has acted about six weeks each year*, he is prepared to forward their Models, Drawings and Specifications, and attend to the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *personally explaining their inventions and of consulting in respect to them; skilful, in general of personal experience in order to obtain correct specifications and claims.* The experience of sixteen year's practice, an extensive collection of rare works, Specifications, &c., on mechanical subjects, the Patent Laws, and decisions of different courts, enable me to render much assistance to those who may favor me with their business.

The above Specimens may be inspected and Patents procured at this office.

Models, &c., forwarded to Washington, and for sale in Bangor, at reasonable prices, by

FISKE & DALE.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor in procuring Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications into a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

MRS. FOSTER'S

Dysentery and Diarrhœa

CORDIAL.

THIS purely Vegetable Medicine has been thoroughly tested and proved to be the best Medicine now in use, as it speedily cures the Dysentery and Diarrhœa. We do not mean to say that it will cure the Cholera, but we do say that in the memorable season of 1849 this Medicine was administered with admirable success to persons who had every appearance of being attacked with the Cholera and others—following giving immediate relief. It has also proved decidedly beneficial to Children when teething.

This is a Medicine which every family should have, it not only cures the above complaints but is the very best remedy for Pain in the Stomach and Bowels, it regulates the Digestive Organs, restores the Appetite and gives new vigor to the Weak and Debilitated. It is also an excellent remedy for Colds and Coughs. Try it and you will find it to be all that is recommended.

Prepared by MRS. FOSTER, and sold wholesale and retail by her proprietress, owner of Mansion and Grounds, at her residence, corner of Summer and Winter Streets, No. 6 State Street, P. A. HALL, Corner of State and Main Streets, and at Hall's Block, No. 2 State Street.

LARGE STOCK OF

Boots, Shoes, Hats, Caps,

AND LEATHER,

Selling at greatly reduced prices, by Auction and Retail, at

No. 1 Main Street.

Littell's Living Age.

E. LITTELL & CO.,

Corner of Tremont and Bromfield Streets.

THIS work is conducted in the spirit of Littell's Museum of Foreign Literature, which was favorably received by the Public for twenty years; but as it is twice as large, and appears so often, the editor not only gives a spirit and freshness to it by many things which were excluded by a month's delay, but while thus attending to the old and gathering a greater and more attractive variety is able also to crowd the solid and substantial part of the literary, historical, and political portrait, as fully to satisfy the wants of the American reader.

The elaborate and valuable Essays of the *Edinburgh, Quarterly*, and other Reviews; and *Blackwood's* acute criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and varied descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the ingenious *Spectator*, the sprightly *Examiner*, the judicious *Athenæum*, the industrious and compre ensive *Britannia*, the instructive *Chemist*, the reverent *Christian Observer*, the learned and reverent *Literary Gazette*, the versatile and compre ensive *Britannia*, the instructive and

Whig and Courier.

John S. Sayward, Editor

MONDAY, JANUARY 20, 1851.

New York Correspondence.

To the Editor of the Whig and Courier

The Nuts core—One way of eating an oyster—Opinions in New York—Parodies—Mr. Hamblin—the riots at Theatres &c

NEW YORK Jan 15th

I conclude you have along presumptuous sentence and by this time probably post script that your correspondent would be a good candidate for a session Oh thing's quite earthquake at Washington to cut into this region The weather is dull and gloomy with no promise of anything It does not look like Gotham Its most eminent themselves with being darkened over with rumbling wheels and purchasing their cream where they can find it While more than half a million of people live on our little Island they are obliged to resort to all sorts of expedients to obtain a living And it must be confessed these workers are not now rendering the way and means The mock auctions support quite a large number and there are perfect sheets from beginning to end There and such things as obtaining a single fashionable bargain for the Peter Bunkites are always sold and he'll see to that It is amusing to see how many ways there are to be ingenious and boast all the while as if they were really intelligent and waste time appearance of every man who happens to come in Every experienced judges of human nature detect a gross fraud at a single glance I have often had them perfect in their calling But it is not dangerous business and just as bad as any of a mode of robbery The business grows less profitable every year, and there fellows have all day to Broadway something without sucking in a single victim The reason is the people are getting their eyes open every month wiser and wiser and these sharpers are growing less numerous, these calicoers are voracious as fleas and many of them are carried off by consumption They live so fast and behave so loud that their lungs can't stand it Many of them who are now engaged in this nefarious business have learned their knowledge of human nature by serving as Ken's eyes and calaverous countenances and they look the part to a great just as if there were a regular college to settle in another world

The Niles and Roberts case, which has been on for all for some time has at last been terminated, and the scoundrels are acquitted Roberts is convicted comparatively light but Niles the chief shyster and accomplished scoundrel suffers some, but not half enough in the opinion of the public He goes to Sing Sing two and a half years and hard labor and a penalty of $2,500 a light sentence for such the enormity of the crime While Niles has lived He has had to have acquisitions to the tune of one hundred thousand dollars in a single way he obtained the $2000 out of that frail youth mentioned upon Mr Haven's behalf a young officer to my boy for a attorney at law He selected an artful abandoned woman whose extraordinary charms have not all departed, for his work of iniquity He knows Haven is a fractional, but a young of money and pride of character, and selected him as the victim of his wiles He watched him less and sings her syren songs, and he fell Haven forgets his marriage vows and has come to her terms The pretended husband is one of the dramatis personæ rushes in and witnesses his pretended wife's infidelity He feels a terrible rage of course, and acts well his part The wanton screams, begs for her life and promises money to do so again, while the unfortunate Haven trembles in every nerve does not because his conscience troubles him, but because he fears an exposure to the world This pretended and much injured husband demands satisfaction, and says Niles to get it for him Niles proposes either threats of exposure or compromise Poor Haven is advised by this very disinterested lawyer to settle the affair and hush it up Haven has a wife and children, whose love or respects and he fears public opinion if it got wind through the world Niles becomes the pretended friend and adviser bargains with the model injured and grieved husband and finally the lowest sum is agreed upon which can possibly heal the wound Haven pays over to Niles $2000 The Attorney takes the lion's share pays over $500 to the woman and all unite to have settled the husband pays Such is the case in brief for which they now suffering imprisonment Could he be a little more generous to the harlots wanton he might have escaped a prosecution and lived to enjoy other fraud heirlooms in his trap Hush! I was too drunk a time and shut up in the State's prison and earn a living for two or three years in more honesty than he ever did but recollect are thousands of deeds and even thousands of blacker deeds every but they have as yet evaded exposure to the public There men even when exposed do not get much sympathy, but they get quite as much as they deserve Their wives and children are the proper objects of pity Mrs Haven died during the progress of the trial, and it is said her husband's knowledge is not very strong Such is life in New York

Our merchants are busy in getting their goods so as to have every thing ready for the Spring trade next month Splendid stores on Broadway are constantly going up and old ones remodelled and there are many young men from Maine here who are doing here a large business Yankees are always seeking for good places to make money Also the largest and the most splendid carpet store in this city or in our Union is on Broadway It is carried on by two young men one is from Maine and the other from New Hampshire There is a great deal of Humphrey The store is lively on account and magnificent and the stock of carpeting correspondent with it They pay rent enough money yearly to amount to a snug fortune and yet they are making money because they manage the affairs on business with skill prudence and enterprise Maine has sent to other States some very fast horses, and her young men are in every State in our country already, showing to the world that some things can be done as well as others

Parodi, the celebrated Italian cantatrice is nightly warbling her sweet strains in Opera and attends concerts in Tripler Hall She is a magnificent woman and acts and sings with great power She has some grit too as well as other qualities in the elements of her composition, Last Monday evening at the Astor Place Opera House, while Norma was being performed, she came forward to the foot lights and spun off her Italian lingo to the orchestra in grand style, giving them some severe rebukes for their remissness Some of the instruments played when they ought not to, and she took that method to correct them! The audience were taken by surprise, for that part of her performance was not set down in the bills She snapped her black eyes at them, pointed her trembling finger and lectured them in good set Italian terms It would sear of the horns played rather loudly which discomforted her and drew out rather rash hisses Some thought she would lick the orchestra collectively, at least flog some of the members of it if they did not blow better or more in tune Parodi is a case She sang last evening at a concert in Tripler Hall, and sang sweetly too

Mr. Hamblin too, the celebrated Gallic Manager debuted for the first time before an American audience last night at the Bowery Theatre Mr. Hamblin is a good actor, and has been long and favorably known to the public, but he is a tough subject, them all—He played a piece of his own composition called The third time on the tree Young, a description of the sensations of a third wife on her husband having escaped from bondage, dreaming into that for at and regrets the mistake he has been taught by his mistress It is a very well written story in admirable style and I have never heard such fine perfect execution from that master instrument before His execution was wonderful It was the sweetest music that ever fell on ears He must be ranked among the first artists of the country

Washington Irving, Israel Putnam, Esq. for General of the Connecticut forces and Commander in Chief at the Encampment on Bunker's Hill, near Boston 17 June, 1775 — Published as the Act directs, by C Shepherd, 9 Spruce

The Belfast Journal man has a leader in his last paper rejoicing on account of the re election of Col Benton to the office of U S Senator from Missouri This article was received during by telegraphic despatch while by later accounts has been suppressed since it certain that up to the time of the despatch being written no reliable Hull gentleman had been received at Col Benton had been so very fortunate The Journal man would be very sadly to have the Colonel put over the Presidential course, but as he is probably doomed to disappointment As the Journal observes Benton should adopt his doctrines, recently announced by him of favoring specific duties in place of the ruinous ad valorem duties of the tariff act of 1846

If your potatoes are watery, put into the water to be boiled a small piece of bread, it will absorb them freely dry and mealy It is an easy and cheap method of remedying excessively bad meals

The Boston Fire Department company has had the honor of the first for the last ten years but the latter have succeeded the engine which has been in use for 30 years and is now sold for old iron

Mr Whitney is to go to London to confer with the Government there on the construction of a Railroad through Canada upon his plan He has steadily declined such overtures in the hope that Congress would at last act this noble enterprise on foot and entrust him with its execution

It is true the Canadian route is shorter but from what information is extant upon the subject, we think that ours is better, less obstructed by snows and easier of construction and working At any rate we can do the work more easily and rapidly than can probably be done in Canada Public opinion in this country is almost unanimous for the enterprise The legislatures of two thirds of the States have acted upon it, and if Congress fears to obey the will of the people it would not be a week before a new Congress would be elected who would do this work

The Pacific Railroad.

The era of War is accomplished Only one more great conflict is possible that between Russia and the West of Europe and even that grows daily less certain as the elements of civilization gain strength in Russia itself

The tendency is launched upon the career of Industry Industry is opposed to battles, conquests and treasures Its treasures live in the products of the earth and are stored in granaries and garnered channels for its prosperity and not in its returns Unconscious to the interests of industry are come to the world Centuries Governments are ruled by the Lords of the Exchange and Masters of Capital, the ambition of Princes and Kings is curbed by fear of bankruptcy and loss of thrones, and the looms of Lowell and Manchester are watched the looms of Lyons and Ghent Peace and Plenty through interdependence of nations and Industry governs, and everywhere it states

But Peace is not stagnation It is a kindred activity, a more intense competition of nations and races Only the form is not warlike It is the struggle of Enterprise against Enterprise against Progress Here the old standard of prowess with the trumpet and the sword, there the new means of comfort and happiness the old spoils and slaves, the old kingdoms and provinces the new spoils of discovery and invention, the old intellectual gold dust the new gold dust, the contest commercial and peaceful Steam and electricity are powerful instruments in the hands of Industry, and they are the agents of Peace

And now it is possible to make this commerce ours We will We possess resources and grasp supremacy in the world of Industry In peaceful power we may be supreme Progress, Progress again Progress! Here the old standard of prowess with the trumpet and the sword, there the new means of comfort and happiness the old spoils and slaves, the old kingdoms and provinces the new spoils of discovery and invention, the old intellectual gold dust the new gold dust, the contest commercial and peaceful Steam and electricity are powerful instruments in the hands of Industry, and they are the agents of Peace

We must establish a direct communication with China and the East We must build the Railroad We must have the ships We must have the depots We must have the posts We must have the power We must have the money We must have the men We will have them We will build the road We will have the commerce We will have the empire We will have the supremacy We will have the treasures We will have the wealth We will have the greatness We will have the glory We will have the prosperity We will have the happiness We will have the peace We will have the power We will have the money We will

THE CHEAPEST NEWSPAPER IN THE WORLD!

THE TRIBUNE FOR 1851.

OPINIONS OF THE PRESS.

The New York Tribune.—The *Providence* (R. I.) *Morning Herald* says: We think no candid person will fail to recognize as a true likeness of the leading American Journal in the following, from the *Boston Post*:

"As the Tribune is now published, it is the best New York weekly sheet we know, without exception, taken the New York Tribune. This may, perhaps, be thought a strong assertion, but we honestly think it a true one. The Tribune is a paper that presents many sterling merits, and none more than its independent tone and fearless exposure of the villainies and frauds of the day, whether political or social. We are well aware that it sometimes takes grounds and expresses opinions not at once always indorsed by the great public; nor perhaps by its own friends; but yet its talent and the tone has likewise secured, for the most part, its friends and its opinions to be correct. It has shown that it has no favorite hobbies, and generally, and that, while its sound morals but doctrines may sometimes, for the hour, appear as utopian and visionary, they are only so because in advance and slightly above the general public ken.

"Among the chief characteristics of the Tribune are its judgment, reliability, power, honesty, candor, and great common sense.

"The editorials in the Tribune are marked by good sense, strength of position, transparency, good temper and an general fund of good logic. They always tend that the productions of men of other pens of strength can and do, and favorably are possessed. As a critic, (and we have) they are courteous, though sometimes almost fearfully severe. Its literary notices are to be regretted, as seldom with as much consideration as the occasion and person will admit. The political articles are characterized by the most signal ability, and to-day, probably, carry more weight and to different readers than any other paper in the City of New York.

The New York Tribune.—This powerful journal, which has passed its fortieth year of thought and action upon all national questions, seems full of the original vigor of Greeley. Its Tribune is superior, in the same evident adequacy of the practical, to all the journals of the day. At one moment the broad shield; friends can exercise support to some exciting each in our political career, at another time lie in wait and dashing a dart at those upon some reasonable fortress of its own weapons. Sometimes the Tribune seems to be wrong, but in the main it is a readable journal we need.—*Newark* (N. J.) *Mercury*.

We are much obliged to The New York Tribune for its exchanges. It is one of the few papers of the country in which we find almost invariably. It approximates the nearest to a universal American and Foreign Newspaper of any that has fallen under our observation.—*Republican*, plant into democratic style of independence by using it to the utmost extent. American and Foreign News, but keeps the City of Rogersville (we would say, the city of Rogersville) in the dark. Well, there is a paper that is better, than we can, some, that's some to colonize any how.—*Reversville* (Tenn.) *Courier*.

The Weekly Tribune for 1851.—Upon the merits of the Tribune it is unnecessary to enlarge. Whether it be considered as a political newspaper, or the world-wide and thoroughly reliable, or the family newspaper, it is equally excellent as a journal in the attainments and ability of which the richest encomiums are generally regarded.—*Fulton* (Penn.) *Gazette*.

The Tribune appears in a new and beautiful dress, and in an improved quality of paper. It is now the handsomest, as well as the best, in every other respect, of the New York daily papers.—*Young American, Rogers, N. J.*

The Tribune, as at present conducted, we regard as the very best newspaper in the world. The London Times is a great paper, but we have many weekly journals in America as well conducted as that, and none so low in price; for only two cents per copy more than The Tribune is every week. When the assorted morsels statistics showing the immense amount of labor performed in the establishment with the intention of giving our readers some idea of the manner in which newspapers are manufactured. At present we do not see how it can be improved upon, and as to forbid the insertion. But we advise such of our friends as are desirous of subscribing for a New York paper, (when one can afford but one,) to take The Tribune.—*Mechanics' Register and Chronicle*.

Having its politics, which of course is not to our taste, The Tribune is one of the best newspapers published in this country. Its news is early and authentic, and its literary matter, excellent.—*Freeman's Companion* N. Y. *Journal*.

The New York Tribune appeared on Friday last in a new dress, and its marked prosperity is just tribute to one of the most able journals in the world. The influence and position of Mr. Greeley is well known; but Mr. C. A. Bigelow, and Messrs. Taylor and their fellow-workers are not to be overlooked. Its newspaper worthy with signal ability, and its news department is furnished with the latest intelligence from every quarter of the globe. In the list of its correspondents are some of the ablest minds of the country, and the collected wisdom of the land and the world on the leading questions of reform now agitating the public mind, does not exceed its host of supporters.—Numerous changes are continually occurring in the political world around us, but we find none in The Tribune. If in the absence of these changes, the same strong and able support of all social and political reforms, which it was at the commencement of its career. If our friends will take a New York paper, they cannot do better than to subscribe for the most reliable journal we know.—*Newark* (N. J.) *Mercury*.

We are much obliged to The New York Tribune for its exchanges. It is one of the few papers of the country in which we find almost invariably. It approximates the nearest to a universal American and Foreign News Journal of any that has fallen under our observation.—*Republican*, plant into democratic style of independence by using it to the utmost extent. American and Foreign News, but keeps the City of Rogersville (we would say, the city of Rogersville) in the dark. Well, there is a paper that is better, than we can, some, that's some to colonize any how.—*Reversville* (Tenn.) *Courier*.

THE Great American Remedy,

FOR Colds, Coughs, Asthma Whooping Cough Croup, and all diseases of the Throat and Lungs, has now been so long before the public as to its reputation so well established, both by its recommendations of Physicians, and from the innumerable testimonials of the infallible virtues by all who have used it *that its sale has become immensely large.* Hundreds have been prevented by the use of every article sold for the same and kindred complaints. As a family medicine, it has never been offered. A double the usual dose is almost invariably necessary the child in the first stages of croup, and relieves and quiets it immediately For quite a number of years it has been the favorite and only real remedy in all the cases named, of one of the most celebrated and skilful Physicians.

Sold wholesale and retail by R K HARDY at No 3 Harlow's Block, Bangor, and by Druggists generally throughout the country. All orders will be promptly attended to

THE GENUINE BALM OF COLUMBIA.

IF you wish a rich, luxuriant head of hair, free from dandruff, and all scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will restore an abundant growth of capillary down; those who have lost their hair for twenty years, have had it restored by its use in a short time. In cases of fever or spotted fever it is the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, so as to impart a rich, glossy appearance, and as a perfume for the toilet it is unrivalled. In short for all the numerous maladies of the hair, this is the most effectual, and the most reliable hair restorative, and the most efficient.

☞ Caution.—Never buy it unless you find the name of Cowan & Co engraved on, on the bottom of each bottle, or you are cheated with a counterfeit article.

DR. GAY'S

Blood Purifier.

THIS invaluable remedy for diseases of the Blood has given universal satisfaction, wherever it has been used and its effects upon the system are so mild, pleasant and effectual, that all who use it are constantly speaking of its wonderful properties, and recommend it in the high est terms, to all who need the remedy.

It is a certain cure for all

Humors and Diseases

of the Blood, for which purpose it is alone intended. Containing in any quantity, can be obtained, of the most eminent physicians of the country, and as well known that it is not deemed necessary to publish them

SCROFULA.

This dreadful disease is deemed of itself sufficient evidence the introduction of Dr GAY'S *BLOOD PURIFIER*. This remedy acts at defiance the skill of the most celebrated Physicians, readily yields to the virtues of the *Blood Purifier*, which, by its wonderful chemical combination, assimilates perfectly with the Blood, and as soon as it is taken, this subtle fluid penetrates the circulation, and coloniz es the blood throughout the whole system Thus, by making the

Fountain of Life

pure, it destroys the poison humors, driving out the putrid body, and produces symptoms and restores the organs of health

It may be well to mention that Dr GAY'S *BLOOD PURIFIER* is entirely vegetable in its composition, is harmless upon a constitution as water, and when a disorder in the stomach, or when a humor is to be expelled from the system, it will be found the most powerful and effectual remedy ever discovered

Mercurial Affections.

Diseases originated by the improper use of Mercury, overcome by the use of the BLOOD PURIFIER, are also Mercurial Rheumatism, Nervous Debility Weakness, Loss of Appetite &c &c.

Pimples on the Face

are entirely removed by using one or two Bottles—and in fact all sores or rashes on which is caused or produced by impure Blood

CONSUMPTION!

This terrible and much dreaded malady, be cured and none of every stage, in its first stages, if taken in time in connection with proper efforts of Dr GAY'S *BLOOD PURIFIER* as in the most advanced stages. Persons in particular afflicted with this fatal disease, are requested to try this remedy before they abandon all hope. Let them take the advice and relief of the unfortunate patient. Try

Muscular Strength

and activity, and the bodily and mental energies are rapidly increased on the use, while the incipient decline of the consumptive is cut short, and the whole system built up and invigorated

Children of a Scrofulous Habit,

and those who are suffering from any form of humor (this is a very pleasant one to the taste) in a short time, will find a most wonderful effect in removing all impurities from the Blood of the little sufferer

BRONCHITIS

and Diseases of the Throat and Lungs—Dr GAY'S *BLOOD PURIFIER* has a specific effect upon these and all Pulmonary complaints. The Blood that carries oxygen to the bronchial vessels, imparts the same to the Blood, and by the aid of the *BLOOD PURIFIER* acts by passing directly to the Blood, and by the aid of that powerful and invigorating tonic diffuses itself in circulation, thus throughout the system, and

Chronic Complaints

and difficulties arising from an impure or weak and impoverished Blood.

ELEGANT AND INVALUABLE Articles for the Toilet

Bogle's Hyperion Fluid.

For Restoring, Preserving and Embellishing the HAIR!

The following Certificate, from Dr. Winslow Lewis one of the most eminent Physicians of Boston, will show conclusively the estimation in which it is held by the scientific and learned, being one only of many similar ones

Boston, Feb. 15, 1847.

Mr. Wm. Bogle—Sir: The preparation invented by you (the Hyperion Fluid) has been used in my family, and they say it is the choicest preparation for the hair, and clears the skin of dandruff in a few weeks, without producing any unpleasant deleterious effects, to obtain so frequently the result of every well known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it has a tendency to promote and maintain a growth of the hair, free from dandruff and scurf. For children, it is the best dressing ever offered to the public.

Lieut. Miller of the Army has kindly sent us the following letter from California

MONTEREY Jan 15, 1850

Messrs A B & D Sands—Gentlemen: I beg leave to add my testimony to the many which I have seen in favor of your valuable Sarsaparilla. I was troubled for many years with a humor in the skin, which was very distressing to me. A few days after I was taken with my accustomed attack of the humor, which was very severe. I happened to find a bottle of your Sarsaparilla in a store, and purchased it. I had not taken more than half of the contents of the bottle before I found myself entirely cured. I happened to find a bottle of Sarsaparilla in a store, and purchased it. I had not taken more than half of the contents of the bottle before I found myself entirely cured. I have since used it in my family for various complaints, and find it to be the best blood purifier I have ever used. I have recommended it to many persons since I have been in California, and they have all found it to be the best they have ever used. I have also used it myself for a severe cough, and found it to be the best I have ever used. I have also used it myself for a severe cough, and found it to be the best I have ever used.

With high regards, yours &c.

J. S. MILLER, U. S. A.

FROM THE STATE OF MAINE.

The attention of the reader is called to the following certificate of a remarkable cure effected by using only five bottles of Sands Sarsaparilla.

SIDNEY (Me.) April 5 1850

Messrs A B & D Sands—Gentlemen: This is to certify that I was afflicted with a humor in the eyes, my face, my limbs, with scrofula, which continued to increase until I was entirely blind, and I had several large sores on me all the time. In this situation I was about to give up in despair, when I was induced to try Sands' Sarsaparilla. I had but little faith in it, but was induced to give it a trial, because Mr. Lord procured a bottle, and exhibited to me such good effects that I was induced to try it. I had taken five bottles when I found myself entirely well. I am a man who may read this letter, and if any one is afflicted with any disease of the kind, I would most sincerely recommend to him the use of Sands' Sarsaparilla. If any one wishes further information, I will cheerfully answer any letter, or they may call on me and I can convince them of the healing power of this medicine.

Signed, STEPHEN HAYWOOD.

Augusta, Aug 31 1850.

BOGLE'S AMOLIE,

A COMPOUND FOR SHAVING.

This article is totally different from any other to anything yet invented for shaving. The use of it leaves the skin soft and pliant, and prevents that disagreeable irritation which is produced by the use of other articles. It is also a most excellent article for washing the face, as
